

Revision date: Initial version
Date of issue: 05.04.2018

Page: 1/10

Trade name:	Twister[®] Wet Location Wire Connector
--------------------	--

SECTION 1: Identification

Product identifier: Twister[®] Wet Location Wire Connector
Synonyms: None available.
Product Code Number: 30-x61, 30-x62, 30-x63
SDS number: ID016
Recommended use: Wire Connector.
Recommended restrictions: Uses other than those recommended.

Manufacturer/Importer/Supplier/Distributor information:

Company Name: IDEAL INDUSTRIES, INC.
Company Address: Becker Place,
Sycamore, IL 60178
Company Telephone: Office hours (Mon – Fri)
7AM - 5 PM (CDT)
(815)895-5181
Company Contact Name: Darryl Docter.
Company Contact Email: IDEAL@IDEALINDUSTRIES.COM
Emergency phone number: 24 HOUR EMERGENCY NUMBER:
(815)895-5181.

SECTION 2: Hazard(s) identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200:

Physical hazards

Not classified as a physical hazard under GHS criteria.

Health hazards

Not classified as a health hazard under GHS criteria.

Environmental hazards

Acute aquatic toxicity, Category 3.
Chronic aquatic toxicity, Category 3.

GHS Signal word: No signal word required.

GHS Hazard statement(s): Harmful to aquatic life with long lasting effects.

GHS Hazard symbol(s): No symbol required

GHS Precautionary statement(s):

- Prevention:** P273 - Avoid release to the environment.
- Response:** No response precautionary statements required.
- Storage:** No storage precautionary statements required.
- Disposal:** P501 - Dispose of contents/ container to an approved waste disposal plant.

Hazard(s) not otherwise

Classified (HNOC): None known.

Percentage of ingredient(s) of unknown acute toxicity:

30% of the mixture consists of ingredients of unknown acute toxicity (oral/dermal/inhalation).

SECTION 3: Composition/information on ingredients

Mixture:

Chemical name	CAS#	Concentration (weight %)
Silicone Compound	63148-62-9	< 30%
Zinc Dust	7440-66-6	< 0.2 %

Note: The balance of the ingredients are not classified as hazardous or are below the classification threshold under the criteria of the Federal OSHA Hazard Communication Standard 29CFR 1910.1200.

SECTION 4: First-aid Measures

Description of necessary measures:

- Inhalation:** No first aid measures usually required. Get medical attention if concerned.
- Skin contact:** No first aid measures usually required. Get medical attention if concerned.
- Eye contact:** No first aid measures usually required. Get medical attention if concerned.
- Ingestion:** No first aid measures usually required. Get medical attention if concerned.
- Most important symptoms/effects, acute and delayed:** None normally expected.

Indication of immediate medical attention and special treatment needed: If any symptoms are observed, contact a physician and give them this SDS sheet. If exposed or concerned: Get medical advice/attention.

SECTION 5: Fire-fighting measures

Suitable extinguishing media: None normally required. Use extinguishing media for surrounding materials.

Unsuitable extinguishing media: None known.

Specific hazards arising from the chemical: None expected, but Polybutylene Terephthalate is a UL listed 94 V-0 flame rated products.
Combustion products - Carbon monoxide, Carbon dioxide.

Special protective equipment and precautions for fire-fighters: For fire involving this material, use self-contained breathing apparatus with full face shield to protect against the hazardous effects of combustion products and oxygen deficiencies. Keep fire exposed containers cool with water.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures:
Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. For personal protection see section 8.

Methods and material for containment and cleaning up:
Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Sweep up to prevent tripping.

SECTION 7: Handling and Storage

Precautions for safe handling: Use good personal hygiene practices.

Conditions for safe storage, including any incompatibles: Keep away from children, infants and pets. Avoid excessive heat or open flames.

SECTION 8: Exposure controls/personal protection

Control Parameters:

Occupational exposure limits:

US OSHA HAZARDOUS COMPONENTS (29 CFR 1910.1200): Permissible Exposure Limits		
Substance	PEL-TWA (8 hour)	PEL-STEL (15 min)
Silicone Compound	No data available	No data available

Zinc Dust	No data available	No data available
-----------	-------------------	-------------------

US ACGIH Threshold Limit Values		
Substance	TLV-TWA (8 hour)	TLV-STEL (15 min)
Silicone Compound	No data available	No data available
Zinc Dust	No data available	No data available

NIOSH Exposure Limits		
Substance	TWA	STEL
Silicone Compound	No data available	No data available
Zinc Dust	No data available	No data available

Appropriate engineering controls: None normally required. General (mechanical) room ventilation is expected to be adequate.

Individual protection measures, such as personal protective equipment:

Eye/face protection: Follow company policy with respect to eye protection. If used, safety glasses should be OSHA compliant.

Skin and Hand protection: None normally required.

Respiratory protection: None normally required. Where protection from nuisance levels of dusts are desired, use type N95 (US) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH/OSHA.

Other: None.

Thermal hazards: No data available.

SECTION 9: Physical and chemical properties

Appearance

- Physical state:** Solid
- Form:** Solid Wire Connector
- Color:** Various.
- Odor:** No data available
- Odor threshold:** No data available
- pH:** Not applicable
- Melting point/freezing point:** No data available
- Initial boiling point and boiling range:** No data available
- Flash point:** No data available
- Evaporation rate:** No data available
- Flammability (solid, gas):** Not applicable
- Upper/lower flammability or explosive limits**

Flammability limit – lower (%):	Not applicable
Flammability limit – upper (%):	Not applicable
Explosive limit – lower (%):	Not applicable
Explosive limit – upper (%):	Not applicable
Vapor pressure:	No data available
Vapor density:	No data available
Relative Density:	No data available
Solubility(ies):	Insoluble.
Partition coefficient (n-octanol/water):	No data available
Auto-ignition temperature:	No data available
Decomposition temperature:	No data available
Viscosity:	No data available
Other information:	
% Volatile by volume:	< 10%
Percent solids by weight:	~ 100%

SECTION 10: Stability and Reactivity

Reactivity:	Not chemically reactive.
Chemical stability:	Stable under normal ambient and anticipated conditions of use.
Possibility of hazardous reactions:	Hazardous reactions not anticipated.
Conditions to avoid:	Avoid direct exposure to flame or excessive heat.
Incompatible materials:	Avoid strong oxidizing agents.
Hazardous decomposition Products:	Excessive heat and burning may release oxides of carbon.

SECTION 11: Toxicological information

Information on likely routes of exposure:

Inhalation:	Not an expected route of entry.
Ingestion:	Ingestion is a primary route of entry.
Skin:	Skin contact is a potential route of entry.
Eyes:	Not an expected route of entry.

Symptoms related to the physical, chemical, and toxicological characteristics:

Constituents are either steel or are bound in a polymer matrix and potential for hazardous exposure is minimal.

Delayed and immediate effects and chronic effects from short or long-term exposure:

Prolonged repeated skin contact with grease may cause slight skin discomfort.

Numerical measures of toxicity:

Ingredient Information:

Substance	Test Type (species)	Value
Silicone Compound	LD ₅₀ Oral (Rat)	No data available
	LD ₅₀ Dermal (Rabbit)	No data available
	LC ₅₀ Inhalation	No data available
Zinc Dust	LD ₅₀ Oral (Rat)	No data available
	LD ₅₀ Dermal (Rabbit)	No data available
	LC ₅₀ Inhalation	No data available

Product Acute Toxicity Estimates:

Acute Oral Toxicity – no data available
Acute Dermal Toxicity - no data available
Acute Inhalation Toxicity - no data available

Skin corrosion/irritation: No information available on the mixture, however none of the components have been classified to cause skin corrosion/irritation (or are below the concentration threshold for classification).

Serious eye damage/eye irritation: No information available on the mixture, however none of the components have been classified to cause eye damage/irritation (or are below the concentration threshold for classification).

Respiratory sensitization: No information available on the mixture, however none of the components have been classified as a respiratory sensitizer (or are below the concentration threshold for classification).

Skin sensitization: No information available on the mixture, however none of the components have been classified as a skin sensitizer (or are below the concentration threshold for classification).

Germ cell mutagenicity: No information available on the mixture, however none of the components have been classified for germ cell mutagenicity (or are below the concentration threshold for classification).

Carcinogenicity: No information available on the mixture, however none of the components are listed in the National Toxicology Program (NTP) Report on Carcinogens (latest edition) or has been found to be a potential carcinogen in the International Agency for Research

on Cancer (IARC) Monographs (latest edition), or by OSHA.

Reproductive toxicity:

No information available on the mixture, however none of the components have been classified for reproductive toxicity (or are below the concentration threshold for classification).

**Specific target organ toxicity-
 Single exposure:**

No information available on the mixture, however none of the components have been classified for STOT SE (or are below the concentration threshold for classification).

**Specific target organ toxicity-
 Repeat exposure:**

No information available on the mixture, however none of the components have been classified for STOT RE (or are below the concentration threshold for classification).

Aspiration hazard:

No information available on the mixture, however none of the components have been classified for aspiration hazard (or are below the concentration threshold for classification).

Further information:

No data available.

SECTION 12: Ecological information

Ecotoxicity:

Product data: No data available

Ingredient Information:

Substance	Test Type	Species	Value
Silicone Compound	LC ₅₀	Fish	No data available
	LC ₅₀	Aquatic crustacea	No data available
	EC ₅₀	Algae	No data available
Zinc Dust	LC ₅₀	Fish	No data available
	LC ₅₀	Aquatic crustacea	No data available
	EC ₅₀	Algae	No data available

Persistence and Degradability: No data available

Bioaccumulative Potential: No data available.

Mobility in Soil: No data available.

Other adverse effects: No data available.

SECTION 13: Disposal considerations

Disposal instructions:

Landfill or incinerate in accordance with Local, State and Federal guidelines.

See Sections 7 and 8 for information on handling, storage and personal protection and Section 9 for physical/chemical properties.

It is possible that the material as produced contains constituents which are not required to be listed in the SDS but could affect the hazardous waste determination. Additionally, use which results in chemical or physical change of this material could subject it to regulation as a hazardous waste.

SECTION 14: Transport Information

US Department of Transportation Classification (49CFR)

Not regulated for transport under DOT

IMDG

Not regulated for transport under IMDG

IATA (Country variations may apply)

Not regulated for transport under IATA

SECTION 15: Regulatory Information

Safety, health and environmental regulations specific for the product.

USA:

United States Federal Regulations: This SDS complies with the OSHA, 29 CFR 1910.1200. The product is hazardous under OSHA.

Toxic Substances Control Act (TSCA) – All hazardous substances in this product are listed, as required, on the TSCA inventory.

SARA Superfund and Reauthorization Act of 1986 Title III sections 302, 311,312 and 313:

Section 302 – No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

CERCLA Hazardous Substance List, 40 CFR 302.4:

None listed.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130):
None listed.

Clean Water Act Section 311 Hazardous Substances (40 CFR 117.3): None listed.

SARA Title III

Section 302 Extremely Hazardous Substance (40 CFR 355, Appendix A): None listed.

Section 311/312 (40 CFR 370):

Acute Health Hazard: No

Chronic Health Hazard: No

Fire Hazard: No

Pressure Hazard: No

Reactivity Hazard: No

Section 313 Toxic Release Inventory (40 CFR 372):

This product contains the following materials that are subject to the reporting requirements of Section 313 of EPCRA: Zinc powder (stabilized).

STATE REGULATIONS:

This SDS contains specific health and safety data is applicable for state requirements. For details on your regulatory requirements you should contact the appropriate agency in your state.

California Proposition 65 (California Safe Drinking Water and Toxic Enforcement Act of 1986): No components are listed.

Massachusetts Right to Know: Zinc powder (stabilized) is listed on the Massachusetts Right to Know List.

New Jersey Right to Know: Zinc powder (stabilized) is listed on the New Jersey Right to Know list.

Pennsylvania Right to Know: Zinc powder (stabilized) is listed on the Pennsylvania Right to Know List.

Canada WHMIS Hazard Class: Not classified as hazardous under WHMIS

SECTION 16: Other information, including date of preparation or last revision.

Revision Date: May 4, 2015

To the best of our knowledge, the information contained herein is accurate. However IDEAL INDUSTRIES INC. does not assume any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and

should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards which exist.
